

# **My Paper**

Ford Prefect, Rick Deckard

January 20, 2019

## INTRODUCTION

Hello, this is my next article. Here is a citation (Mattar and Gribble, 2005).

## METHODS

Here is an equation:

$$\hat{Y}_i = \beta_0 + \beta_1 X_i + \varepsilon_i \quad (1)$$

Equation 1 is the linear regression equation.

## RESULTS

I don't really have any yet. Figure 1 shows a picture of a cat.

**Figure 1:** A cat from the interwebs

## DISCUSSION

What would you like me to discuss? I could talk about how nice it is that pandoc can use .csl styles to generate bibliographies, there are lots of them here:

<https://github.com/citation-style-language/styles>
